# John Bubba Leonard Foundation

## Our story so far

### Our Mission

#### Education, Community Service, and Community Revitalization

The JBL Foundation is committed to assisting and empowering impoverished communities and vulnerable populations in Georgia and Alabama by means of educational scholarships, housing, and living assistance.

#### Education

Scholarships, in the form of financial assistance, will be awarded to qualified high school student(s) who are trying to pursue a college and/or vocational, and technological education and enrolled students who need financial assistance to remain in college, vocational, and technical institutions.

Financial literacy courses will be offered to middle school, high school, and collegiate students, designed to introduce the concepts of budget, credit, and debt management.

#### Community Service

Housing and living assistance for families in need of rental help, temporary shelter, and/or senior care.

#### Community Revitalization

In partnership with local municipalities, businesses, corporations, builders, development associations, and financial institutions, JBL Foundation will support revitalization strategies to include education, economic development, financial security, housing development, and the physical fabric of blighted and impoverished communities.

### Our Vision

Our vision is to ultimately broaden our reach throughout the southern region to serve as a convener of resources and partners dedicated to holistic support, empowerment, education, and economic growth for our most vulnerable communities.

# Our Why

## Serving as a liaison for corporate sustainability and community outreach endeavors

John Bubba Leonard embodied service, kindness, and community. His memory and life's work will continue through the John Bubba Leonard Foundation, Inc. to assist and empower impoverished communities and vulnerable populations in Georgia and Alabama by means of educational scholarships, housing, and living assistance.

"**You be right!**", his signature expression, activates our mission and purpose.

## Education Year 1 2022-2023

The **Scholarship Program** will award financial help to qualified high school students admitted into a 2-year, 4-year, or community college in pursuit of higher education.

The **Financial Literacy Program** will have three tiers of curriculum curated on the importance of saving, knowledge of debt, and fiscal management. The first level is an introductory course for middle to high school students. The second level is designed for high school seniors and collegiate level students, and the third tier is designed for young adults and first-time homebuyers.

Industry experts in housing, finance, and community services

The pandemic-created recession increased need

Life-long residents & advocate

A safe home and environment, a quality education, and support services for physical and mental health are the cornerstones for community equity, economic development, and building wealth.

Three essential pillars can significantly impact the legacy we leave our children and the future of the Chattahoochee Valley. Your participation will equip the JBL Foundation with support to build our organization's capacity and develop sustainable and innovative programs.

# Partnership Activation

## Serving as a liaison for corporate sustainability and community outreach endeavors

- Partnership activation use collective impact to bolster and accelerate transformative processes and services that support a holistic approach to economic sustainability.
- Education raises productivity, creativity, and fosters innovation and technological advances.
- Community service impacts the gross domestic product (GDP) adding a financial value to investing in human capital.
- Safe, healthy, environments are the catalyst to education and wealth. How you live and where you live has a direct impact on the quality of life. Community revitalization helps to bridge the poverty gap.

SERVICE	PRODUCT	OUTCOME
Education	High School Scholarship Collegiate Scholarship Tech/Vocation Scholarship Financial Literacy Program	<ul style="list-style-type: none"><li>• Strengthen economy &amp; workforce</li><li>• Eradicate poverty</li><li>• Wealth equity</li></ul>
